

Wagg Access Control Box

Product Description

The Wagg Access Control Box (WACB-0001) is a secure, outdoor-rated access control device designed for dog parks. It pairs with the Wagg Fail Safe Electromechanical Lock (WSEL-2000) to enable unattended controlled entry using the Wagg Mobile App and exit via the Wagg Exit Push Button (WAEB-0001). Intelligent energy features allow the WACB-001 to enter a low-power standby state when the park is closed.

Key Features

- Access control via the Wagg Mobile App and Wagg Exit Push Button
- Outdoor, weather-proof enclosure
- Pole or fence mountable design
- Energy savings features included
- 12–24 VDC power input
- Designed for dog park installations

Applications

- Gated dog parks and off-leash areas
- Municipal and private dog park installations
- HOA and apartment community pet areas
